Strategic Business Development & Growth Planning

Ref: 16183_1009819 **Date:** 16 – 20 November 2026 **Location:** Amsterdam (Netherlands) **Fees:** 5600 Euro

Introduction:

In today's highly competitive and rapidly changing business landscape, strategic business development and growth planning are essential for achieving sustainable success. This Strategic Business Development and Growth Planning course empowers professionals with the strategic mindset, planning frameworks, and actionable tools to identify, analyze, and capitalize on growth opportunities.

This Strategic Business Development and Growth Planning program emphasizes aligning strategic objectives with market realities, competitor movements, and internal capabilities to drive effective business growth. Participants will learn how to build data-driven strategies that drive profitability, expand market share, and boost long-term resilience.

With practical examples and expert-led insights, the Strategic Business Development and Growth Planning training course enables participants to turn concepts into actionable steps. It addresses how to manage uncertainty, build competitive advantages, and maintain adaptability in dynamic markets. Participants will lead growth-focused transformation within their organizations.

Targeted Groups:

This Strategic Business Development and Growth Planning training targets professionals seeking specialized knowledge and skills:

- Business development managers.
- Strategic planning officers.
- Corporate executives and C-level leaders.
- Entrepreneurs and startup founders.
- Sales and marketing directors.
- Financial analysts and corporate planners.
- Product development leaders.
- Organizational development professionals.
- Senior consultants in business advisory roles.
- Professionals aiming to shift into strategic roles.

Course Objectives:

Participants will achieve the following objectives by completing the Strategic Business Development and Growth Planning course:

- Understand key growth strategy models and business development frameworks.
- Analyze both internal and external factors that affect strategic planning.
- Identify and evaluate market opportunities with data-driven insights.
- Set measurable strategic goals aligned with organizational objectives.
- Design effective business development plans to drive expansion.
- Apply techniques to monitor, adapt, and recalibrate strategies.
- Assess competitive landscapes to develop a winning value proposition.
- Develop agile responses to market volatility and disruption.
- Create a balance between innovation and long-term planning.
- Present and communicate strategic initiatives clearly to stakeholders.
- Lead strategic projects and manage change effectively.
- Align team performance with strategic growth objectives.
- Integrate risk mitigation strategies into growth planning.
- Evaluate the financial impacts of growth decisions.
- Drive stakeholder buy-in for strategic initiatives.
- Reflect critically on business growth processes for continuous improvement.

Targeted Competencies:

Participants will gain the following competencies during the Strategic Business Development and Growth Planning program:

- Strategic analysis and market assessment.
- Business model evaluation and innovation.
- Data interpretation for growth planning.
- Goal setting and implementation design.
- Agile strategic thinking and problem-solving.
- Stakeholder communication and persuasion.
- Cross-functional leadership and collaboration.
- Forecasting and scenario planning.
- Risk-based decision-making.
- Performance monitoring and KPI management.

Course Content:
