Advanced International Financial Reporting Standards (IFRS) Course

Ref: 16279_1013819 **Date:** 11 – 15 April 2027 **Location:** Cairo (Egypt) **Fees:** 3500 Euro

Introduction:

The Advanced International Financial Reporting Standards IFRS training course equips finance professionals with a deep and practical understanding of global accounting standards. In today's interconnected business environment, mastering IFRS is essential for ensuring transparency, comparability, and integrity in financial reporting.

This Advanced International Financial Reporting Standards IFRS course covers the full spectrum of IFRS topics, from corporate governance principles to the intricate details of financial statement preparation and analysis. Participants will examine lessons learned from high-profile accounting scandals, explore the challenges of convergence between international and local standards, and understand the latest developments in IFRS adoption.

The course gives special attention to interpreting financial reports, applying ratio analysis, and utilizing Excel-based analytical tools. Through real-world case studies, attendees will enhance their decision-making capabilities in financial reporting contexts. By the end of the Advanced International Financial Reporting Standards IFRS program, participants will apply IFRS standards confidently in diverse organizational settings.

Targeted Groups:

This Advanced International Financial Reporting Standards IFRS training targets professionals seeking specialized knowledge and skills:

- Financial managers work in multinational companies.
- Certified public accountants and auditors.
- Financial controllers and reporting specialists.
- Risk management and compliance officers.
- Investment analysts and portfolio managers.
- Corporate governance advisors.
- Finance professionals in government agencies.
- Senior accountants in listed companies.
- Consultants in accounting and financial advisory firms.
