Accounts Payable Mastery: Strategic Accounting, Controls, and Digital Transformation

Ref: 16470_1022129 **Date:** 13 – 17 June 2027 **Location:** Dubai (UAE) **Fees:** 4600 Euro

Introduction:

Accounts Payable AP is no longer just a back-office function—it's a strategic cornerstone of financial control, liquidity management, and corporate governance. This advanced training program provides a deep, practical, and analytical understanding of AP processes, internal controls, automation, vendor management, compliance, and financial optimization. Participants will explore best practices, modern tools, and strategic frameworks used by leading organizations worldwide to achieve efficiency, accuracy, and control across the AP function.

Target Audience:

- Senior accountants and financial controllers.
- Accounts Payable managers and supervisors.
- Finance professionals are involved in procurement and payment cycles.
- Internal auditors and compliance officers.
- ERP system users and financial analysts are seeking deeper operational insight.

Course Objectives:

By the end of this program, participants will be able to:

- Strengthen participants' understanding of advanced AP operations and controls.
- Equip participants with the knowledge to manage AP strategically and align it with financial performance goals.
- Develop the ability to identify and mitigate AP-related risks and compliance issues.
- Apply automation, analytics, and KPIs to enhance accuracy, efficiency, and transparency in payment cycles.
- Integrate AP into broader organizational strategies for working capital and supplier relationship management.
- Design and implement best-in-class AP processes and control systems.
- Evaluate and optimize payment terms, cash flow, and working capital.
- Implement internal audit and fraud-prevention mechanisms within AP.
- Leverage ERP and digital tools for automation and data-driven decision-making.
- Manage vendor relationships strategically to enhance financial performance and reliability.
