Masterclass in Data Privacy Governance & Compliance Based on CIPP & CIPM Frameworks

Ref: 121208_1022855 **Date:** 5 – 9 September 2027 **Location:** Cairo (Egypt) **Fees:** 4000 Euro

Introduction:

This Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks masterclass provides professionals with advanced knowledge of data privacy governance and compliance, aligned with CIPP and CIPM frameworks. Participants will gain a deep understanding of global privacy regulations and best practices for organizational data management. They will lead privacy initiatives and compliance audits.

The Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks course focuses on risk assessment, policy development, and operational compliance strategies. Learners will explore practical applications for privacy programs and learn to implement frameworks effectively. The training equips participants to manage data responsibly while ensuring regulatory adherence.

Targeted Groups:

This Masterclass in Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks targets professionals seeking specialized knowledge and skills:

- Data protection officers.
- Compliance managers.
- IT security specialists.
- Legal and privacy advisors.
- Risk management professionals.
- Privacy consultants.
- Regulatory affairs professionals.

Course Objectives:

Participants will achieve the following objectives by completing the Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks course:

- Understand global privacy regulations and frameworks.
- Develop and implement privacy governance policies.
- Conduct data protection impact assessments.
- Design compliance strategies for organizations.
- Manage privacy risks and mitigate breaches.
- Lead audits and monitoring programs.
- Align operational processes with regulatory requirements.
- Apply CIPP and CIPM principles to real-world scenarios.

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

Targeted Competencies:

Participants will gain the following competencies during the Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks program:

- Expertise in privacy governance frameworks.
- Skills in data protection policy development.
- Ability to assess organizational compliance.
- Knowledge of international privacy laws.
- Capability to identify and manage risks.
- Competence in audit and monitoring processes.
- Practical application of privacy program management.
- Effective communication of compliance strategies.
- Analytical skills for regulatory adherence.

Studying Scenarios:

In this Data Privacy Governance and Compliance Based on CIPP and CIPM Frameworks training, participants will develop their skills through the analysis of the following scenarios:

- Evaluating compliance gaps in organizational data handling.
- Responding to data breach incidents.
- Implementing privacy policies in multinational companies.
- Conducting impact assessments for sensitive data.
- Designing governance frameworks for regulatory alignment.
- Auditing operational practices for compliance.
- Advising leadership on privacy strategy.
