Strategic Leadership Development for Managers

Ref: 121471_1034035 **Date:** 11 – 15 July 2027 **Location:** Amman (Jordan) **Fees:** 3300 Euro

Introduction

This Strategic Leadership Development for Managers course equips managers with the advanced leadership capabilities required to navigate complex organizational environments. It focuses on building strategic thinking skills that enable leaders to align team performance with long-term business objectives. Participants will explore modern leadership practices that enhance decision-making, communication, and organizational influence. The program emphasizes the development of practical leadership approaches applicable to dynamic workplace challenges. It also strengthens the ability to lead teams through change while maintaining operational stability. It supports the transformation of managers into strategic leaders capable of driving sustainable organizational success.

Targeted Groups

This Strategic Leadership Development for Managers training targets professionals seeking knowledge and skills:

- Middle and senior managers are responsible for team leadership and performance.
- Supervisors aiming to enhance strategic decision-making abilities.
- Department heads are involved in organizational planning and execution.
- Team leaders are seeking leadership skills training for better coordination.
- Project managers handling cross-functional teams and strategic goals.
- HR professionals supporting leadership development initiatives.
- Executives preparing for advanced organizational leadership roles.

Course Objectives

Participants will achieve the following objectives by completing the Strategic Leadership Development for Managers course:

- Develop a strong understanding of strategic leadership principles and managerial effectiveness in modern organizations.
- Enhance decision-making capabilities through structured analysis and critical thinking in complex business situations.
- Strengthen leadership communication skills to influence teams, stakeholders, and organizational direction effectively.
- Apply strategic management skills to align departmental goals with overall business objectives.
- Improve performance management leadership techniques to drive employee productivity and accountability.
- Build the ability to manage change initiatives and support organizational transformation processes.
- Develop executive leadership development competencies that support long-term career progression.
- Strengthen problem-solving abilities for high-pressure managerial environments and uncertain conditions.

Targeted Competencies

Participants will gain the following competencies during the Strategic Leadership Development for Managers program:

- Strategic leadership capability to guide teams toward organizational success.
- Analytical thinking for evaluating business challenges and opportunities.
- Advanced managerial leadership training course skills for effective team supervision.
- Strong decision-making for managers in dynamic and competitive environments.
- Communication and influence skills for leadership effectiveness.
- Organizational leadership training competencies for aligning strategy with execution.
- Ability to manage performance systems and improve workplace efficiency.

Studying Scenarios

In this Strategic Leadership Development for Managers training, participants develop skills through the following scenarios:

- Leading a department through restructuring while maintaining productivity and morale.
- Making strategic decisions during market uncertainty and operational disruptions.
- Managing underperforming teams using performance management leadership techniques.
- Resolving conflicts between departments while maintaining organizational alignment.
