Strategic Corporate Governance Leadership & Accountability

Ref: 121542_1037154 **Date:** 5 – 9 October 2026 **Location:** Milan (Italy) **Fees:** 6200 Euro

Introduction

This Strategic Corporate Governance Leadership & Accountability course explores the principles and frameworks that shape effective corporate governance and leadership accountability in modern organizations. It focuses on how governance structures influence decision-making, transparency, and organizational performance. Participants will gain a clear understanding of board responsibilities, ethical leadership, and compliance systems. The program highlights the relationship between governance and risk management in complex business environments. It develops the ability to evaluate governance models and apply accountability standards in real organizations. Overall, it prepares professionals to strengthen leadership effectiveness and corporate integrity.
