Executive Development in Innovation & Change Leadership Training

Ref: 121580_1038821 **Date:** 25 – 29 October 2026 **Location:** Cairo (Egypt) **Fees:** 3500 Euro

Introduction

The Executive Development in Innovation & Change Leadership course strengthens the strategic capabilities of leaders managing transformation, organizational growth, and innovation-driven performance. It explores advanced leadership practices that support sustainable change, business agility, and competitive advantage in rapidly evolving industries. Participants examine how executive leadership influences organizational culture, innovation management, digital transformation, and employee engagement during periods of change. The program provides a structured understanding of strategic decision-making, change implementation models, innovation frameworks, and leadership communication techniques. It highlights modern approaches used in executive leadership training, innovation strategy development, and organizational change management programs across global institutions. Through practical theoretical scenarios, participants develop the ability to lead innovation initiatives, manage resistance to change, and align organizational transformation with long-term business objectives.

Targeted Groups

This Executive Development in Innovation & Change Leadership training targets professionals seeking knowledge and skills:

- Executive leaders managing organizational transformation initiatives.
- Senior managers leading innovation and strategic growth projects.
- Directors responsible for business change management programs.
- Team leaders supervising digital transformation activities.
- Human resource managers support organizational development.
- Operations managers are improving business agility and performance.
- Strategy professionals are involved in innovation leadership planning.
- Department heads managing organizational culture change.
- Consultants specializing in leadership development and transformation.
- Entrepreneurs seeking innovation-driven leadership capabilities.

Course Objectives

Participants will achieve the following objectives by completing the Executive Development in Innovation & Change Leadership course:

- Understand the principles of innovation leadership and strategic transformation.
- Analyze executive leadership approaches for organizational change success.
- Evaluate change management frameworks used in modern organizations.
- Develop strategies for leading innovation and continuous improvement.
- Strengthen decision-making capabilities during complex business transitions.
- Improve leadership communication during organizational restructuring processes.
