Public Administration and Leadership Program

Ref: 121591_1039323 **Date:** 11 – 15 January 2027 **Location:** Boston (USA) **Fees:** 7500 Euro

Introduction

The Public Administration and Leadership course provides an understanding of modern governance systems, institutional leadership practices, and public sector management strategies. It explores how government institutions and public organizations achieve operational efficiency, policy implementation, and sustainable development goals through effective administrative leadership. Participants examine leadership styles, strategic planning methods, organizational behavior, and decision-making models used in contemporary public administration. The program focuses on governance frameworks, public policy analysis, human capital management, and performance improvement within governmental and non-governmental institutions. It emphasizes ethical leadership, digital transformation in public services, crisis management, and institutional accountability to support effective administrative performance. Through theoretical learning and applied study scenarios, participants develop practical knowledge that strengthens leadership capabilities and enhances administrative excellence in public sector environments.

Targeted Groups

This Public Administration and Leadership training targets professionals seeking knowledge and skills:

- Public sector managers and supervisors.
- Government officials and administrators.
- Municipal and local authority employees.
- Strategic planning and policy specialists.
