Effective Cash Flow Management for Finance Leaders

Ref: 121786_1047501 **Date:** 30 May – 3 June 2027 **Location:** Sharm El-Sheikh (Egypt) **Fees:** 4500 Euro

Introduction

The Effective Cash Flow Management for Finance Leaders course strengthens financial leadership capabilities by developing advanced knowledge of cash flow planning, monitoring, and optimization. It explores strategic approaches to help finance professionals improve liquidity management, enhance financial stability, and support sustainable organizational growth. Participants will examine the principles of cash flow forecasting, working capital management, and financial decision-making processes that influence business performance. The program provides a framework for analyzing cash movements, identifying risks, and implementing effective control mechanisms. It focuses on practical financial concepts that help leaders manage operational cash requirements and align cash flow strategies with organizational objectives. Participants will develop the ability to make informed financial decisions that improve cash efficiency and long-term business resilience.

Targeted Groups

This Effective Cash Flow Management for Finance Leaders training targets professionals seeking knowledge and skills:

- Finance leaders manage organizational liquidity and financial planning.
