Corporate Business Finance Planning & Control Skills

Ref: 121787_1047555 **Date:** 26 – 30 September 2027 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4600 Euro

Introduction

The Corporate Business Finance Planning & Control Skills course provides professionals with a comprehensive understanding of financial planning, budgeting, analysis, and control practices that support effective business decision-making. It explores the essential principles of corporate finance, focusing on how organizations develop financial strategies, optimize resources, and sustain financial performance. Participants will learn how to evaluate financial information, establish control mechanisms, and improve operational efficiency through structured financial planning processes. The program covers key areas such as financial forecasting, cash flow management, cost control, performance measurement, and strategic financial decision-making. By developing practical knowledge of financial management techniques, participants will be better prepared to contribute to organizational growth and long-term financial stability.

Targeted Groups

This Corporate Business Finance Planning & Control Skills training targets professionals seeking knowledge and skills:
