Corporate Internal Audit Control & Compliance

Ref: 121800_1048253 **Date:** 5 – 9 September 2027 **Location:** Online **Fees:** 1900 Euro

Introduction

The Corporate Internal Audit Control & Compliance course provides an understanding of internal audit practices, control systems, and compliance frameworks that support organizational effectiveness. It explores the principles of internal auditing, risk management, governance structures, and regulatory compliance requirements within modern organizations. Participants will examine how internal control mechanisms help improve operational efficiency, financial accuracy, and business transparency. The program focuses on developing knowledge of audit planning, control evaluation, compliance monitoring, and risk-based auditing approaches. It highlights the role of internal audit functions in identifying weaknesses, improving processes, and supporting strategic decision-making. Participants will gain the ability to understand and apply professional internal audit and compliance concepts in corporate environments.

Targeted Groups

This Corporate Internal Audit Control & Compliance training targets professionals seeking knowledge and skills:

- Internal auditors develop advanced audit and control expertise.
- Compliance officers manage organizational compliance requirements.
- Risk managers improve internal risk assessment practices.
- Finance professionals strengthen their knowledge of financial control.
- Governance specialists supporting corporate accountability frameworks.
- Quality managers enhance process monitoring capabilities.
- Department managers improve internal control awareness.
- Business leaders seeking effective approaches to compliance management.

Course Objectives

Participants will achieve the following objectives by completing the Corporate Internal Audit Control & Compliance course:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Understand the fundamental principles of corporate internal auditing practices.
- Identify the role of internal controls in organizational governance.
- Analyze different approaches to risk-based internal audit planning.
- Evaluate control systems to improve operational effectiveness.
- Understand compliance management frameworks and regulatory requirements.
