Government Accounting & Public Sector Finance

Ref: 121825_1053406 **Date:** 18 – 22 January 2027 **Location:** Rome (Italy) **Fees:** 6200 Euro

Introduction

The Government Accounting & Public Sector Finance course provides an understanding of financial management in government organizations. It explains government accounting principles, public budgeting, financial reporting, and fiscal management. Participants examine how public funds are planned, controlled, and monitored to support effective governance. The program explores financial accountability, transparency, compliance, and internal control systems within the public sector. Real-world theoretical scenarios strengthen understanding of public financial management challenges and decision-making processes. Participants will understand the core practices that improve financial performance and accountability across government institutions.

Targeted Groups

This Government Accounting & Public Sector Finance training targets professionals seeking knowledge and skills:

- Government accountants and finance officers.
- Public sector budget specialists.
- Treasury and financial control staff.
- Internal and external auditors.
- Public finance managers and supervisors.
- Government project and program managers.
- Policy and planning professionals.
- Municipal and local government officials.
- Financial consultants supporting public institutions.
- Professionals seeking careers in public financial management.
