Strategic Compensation, Payroll Analytics & Workforce Cost Optimization

Ref: 121849_1054523 **Date:** 13 – 24 December 2026 **Location:** Amman (Jordan) **Fees:** 5500 Euro

Intoduction

As organizations continue to face increasing labor costs, evolving compensation strategies, global compliance requirements, and growing workforce expectations, payroll has become a critical source of strategic business intelligence. Modern payroll and compensation leaders are expected not only to ensure accurate salary processing but also to optimize workforce costs, improve operational efficiency, support executive decision-making, and align reward strategies with organizational performance.

This executive programme equips participants with advanced competencies in strategic compensation planning, payroll analytics, workforce cost management, executive reporting, performance-based rewards, labor budgeting, AI-powered workforce forecasting, and organizational payroll optimization. Participants will learn how leading global organizations transform payroll data into actionable business intelligence that supports sustainable growth and competitive advantage.

Targeted Groups

This Strategic Compensation, Payroll Analytics & Workforce Cost Optimization training targets professionals seeking knowledge and skills:

- Payroll Directors.
- Payroll Managers.
- Compensation & Benefits Managers.
- HR Directors.
- Chief Human Resources Officers CHROs.
- Finance Managers.
- Financial Controllers.
- Shared Services Managers.
