Financial Reporting, IFRS Compliance, and Analysis

Ref: 121877_1056011 **Date:** 17 – 21 May 2027 **Location:** London (UK) **Fees:** 5800 Euro

Introduction

Financial reporting provides a structured representation of an organization's financial position, performance, cash flows, and changes in equity for internal and external users. This Financial Reporting, IFRS Compliance, and Analysis course develops an understanding of IFRS-based financial reporting, emphasizing recognition, measurement, presentation, disclosure, and compliance principles. Participants examine how accounting policies, estimates, judgments, and disclosure practices influence the quality and comparability of reported financial information. The program develops systematic approaches to financial statement analysis, including trend, common-size, ratio, liquidity, profitability, efficiency, and solvency analysis. It interprets financial statements alongside notes, management commentary, and other reporting information when forming analytical conclusions.

Targeted Groups

This Financial Reporting, IFRS Compliance, and Analysis training targets professionals seeking knowledge and skills:

- Financial accountants preparing IFRS-compliant financial statements.
- Reporting specialists managing annual and interim reporting cycles.
- Finance managers reviewing reporting accuracy and consistency.
- Internal auditors assessing financial reporting controls and compliance.
- Financial analysts interpreting statements, ratios, and performance trends.
- Controllers overseeing accounting policies, disclosures, and reporting quality.
- Professionals supporting IFRS implementation and reporting improvements.

Course Objectives

Participants will achieve the following objectives by completing the Financial Reporting, IFRS Compliance, and Analysis course:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Explain the purpose, structure, and principles of IFRS-based financial reporting.
- Interpret key requirements affecting financial statements and disclosures.
- Distinguish recognition, measurement, presentation, and disclosure requirements.
- Assess reporting practices for consistency with applicable IFRS standards.
- Analyze statements of financial position, profit or loss, and cash flows.
- Apply horizontal, vertical, trend, and ratio analysis techniques.
- Evaluate liquidity, profitability, efficiency, leverage, and solvency indicators.
- Examine accounting estimates, judgments, policies, and reporting assumptions.
- Identify potential inconsistencies, omissions, and indicators of reporting quality.
- Interpret notes, accounting policies, and supporting disclosures.
- Compare financial performance across periods and comparable organizations.
- Assess how accounting choices influence financial analysis and comparability.
- Formulate evidence-based conclusions from reported financial information.
- Communicate analytical findings clearly for financial decision-making.

Targeted Competencies

Participants will gain the following competencies during the Financial Reporting, IFRS Compliance, and Analysis program:

- IFRS-based reporting interpretation.
- Financial statement structure and presentation.
- Recognition and measurement assessment.
- Disclosure and accounting policy review.
- Financial statement analysis.
- Ratio and trend interpretation.
- Cash flow evaluation.
- Reporting quality assessment.
- Comparability and consistency analysis.
- Analytical judgment and evidence-based conclusions.
- Identification of reporting risks and inconsistencies.
- Clear communication of financial insights.

Real-world Case Studies

In this Financial Reporting, IFRS Compliance, and Analysis training, participants develop skills through the following cases:

- Reviewing a company's financial statements for IFRS compliance and disclosure gaps.
- Comparing two companies using profitability, liquidity, leverage, and cash flow analysis.
- Assessing how an accounting policy change affects earnings, assets, equity, and analytical conclusions.
- Investigating unusual revenue trends, estimates, and disclosures to assess reporting quality.
