MERCURY

Risk Management Professional (RMP) Training

Ref: 15141_1061909 **Date:** 21 – 25 February 2027 **Location:** Muscat (Oman) **Fees:** 5500 Euro

Introduction:

Risk management is integral to any project, offering significant value to the outcomes and the individuals involved. The Risk Management Professional RMP training is specifically crafted to guide delegates through the intricate risk management framework, starting from fundamental concepts and escalating to strategies suited for senior management.

This RMP risk management professional training aims to transform delegates into adept risk practitioners empowered with the knowledge to make informed decisions that benefit their organizations. It delivers a detailed comprehension of the entire risk management framework.

This RMP risk management professional training course focuses on developing a solid foundation in risk management principles, fostering a culture receptive to risk management, breaking through behavior barriers that hinder successful implementation, and providing practical tools for assessing and monitoring risks.

Targeted Groups:

- Project Managers.
- Project Engineers.
- Project Support Staff.
- Business Development Staff.
- PMO Staff.

Course Objectives:

Upon completion of this RMP risk management professional course, participants will be able to:

- Appreciate how risk management aids organizations in achieving objectives and enhancing decision-making processes.
- Recognize the advantages of risk management and its interplay with governance, assurance, and sustainability.
- Identify organizational risks, understanding the concepts of positive and negative risks.
- Comprehend the importance of ISO 31000: Risk management principles, framework, and processes.
- Understand the critical role of organizational culture, communication, and behavior in risk management.
- Evaluate risks and decide on suitable actions and controls using key tools.
- Communicate risks effectively within the organization and to external stakeholders.
- Develop knowledge on establishing the organization's risk appetite and tolerance levels.

Dubai - UAE: +971 4 450 5697
