MERCURY

Certified Risk Professional (CRISP)

Ref: 16232_1069594 **Date:** 14 – 18 February 2027 **Location:** Muscat (Oman) (185) **Fees:** 5500 Euro

Introduction:

The Certified Risk Professional CRISP course empowers professionals with the knowledge and skills to lead the implementation of an integrated risk management framework aligned with ISO 31000 principles and guidelines. It addresses the critical need for organizations to manage risks systematically and proactively across all domains, including information security and business continuity.

Participants will explore how to tailor risk management practices to comply with ISO/IEC 27001 requirements for information security and ISO 22301 for business continuity. The Certified Risk Professional CRISP training course offers a strategic approach that integrates these standards to enhance organizational resilience and effectiveness.

Learners will develop practical capabilities to assess, treat, monitor, and communicate risks effectively. This Certified Risk Professional CRISP program prepares risk managers, compliance officers, and project leaders to drive continuous improvement in risk management practices. Participants will confidently lead projects that protect organizational value and support strategic objectives.

Targeted Groups:

This Certified Risk Professional CRISP training targets professionals seeking specialized knowledge and skills:

- Risk managers and officers are responsible for enterprise risk management.
- Information security professionals focus on risk mitigation.
- Business continuity planners and coordinators.
- Compliance and audit professionals require integrated risk frameworks.
- Project managers leading risk-related initiatives.
- Senior managers oversee governance and risk policies.
- Consultants advising organizations on risk strategies.
- Internal control specialists seeking risk management alignment.
- Professionals preparing for ISO 31000, ISO/IEC 27001, and ISO 22301 certifications.

Course Objectives:

Participants will achieve the following objectives in the Certified Risk Professional CRISP course:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Understand the principles and framework of ISO 31000 for integrated risk management.
- Analyze risk management requirements in ISO/IEC 27001 and ISO 22301.
- Design and customize risk management processes suitable for organizational needs.
