Advanced Legal Drafting for Commercial and Business Contracts

Ref: 16467_1071147 **Date:** 20 – 24 December 2026 **Location:** Doha (Qatar) **Fees:** 5500 Euro

Introduction:

This Advanced Legal Drafting for Commercial and Business Contracts course trains lawyers, in-house counsel, contract managers, and business professionals in advanced techniques for drafting, negotiating, and reviewing commercial and business contracts. This training focuses on drafting precision, clause architecture, risk allocation, and enforcement strategies that reduce disputes and support business goals.

Participants will learn to translate commercial terms into enforceable legal language and to tailor standard clauses to complex transactions. The Advanced Legal Drafting for Commercial and Business Contracts program emphasizes practical drafting frameworks, clause-by-clause analysis, and drafting for cross-border enforceability. It integrates modern contract-management considerations and compliance obligations. Learners will produce clearer, more defensible contracts aligned with the organization's risk appetite.

Targeted Groups:

This Advanced Legal Drafting for Commercial and Business Contracts training targets professionals seeking specialized knowledge and skills:

- Corporate lawyers drafting commercial agreements.
- In-house counsel managing supplier and customer contracts.
- Contract managers and procurement specialists.
- Legal advisors to startups and scale-ups.
- Paralegals supporting transactional teams.
- Compliance officers reviewing contractual obligations.

Course Objectives:

Participants will achieve the following objectives by completing the Advanced Legal Drafting for Commercial and Business Contracts course:

- Understand the anatomy of commercial contracts and their business drivers.
- Identify and draft essential clauses for sales, services, distribution, and licensing.
- Structure agreements to allocate risk clearly and limit liability exposure.
- Draft precise definitions and operative clauses to avoid ambiguity.
- Apply drafting techniques that enhance enforceability across jurisdictions.
- Build negotiation strategies that protect commercial interests while enabling deals.
- Produce clean, modular clause libraries and drafting checklists for team use.
- Critically review and redline third-party drafts with an eye to commercial outcomes.

Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

Targeted Competencies:

Participants will gain the following competencies during the Advanced Legal Drafting for Commercial and Business Contracts program:

- Draft clear recitals, definitions, and operative provisions.
- Construct effective indemnities, warranties, and limitation of liability clauses.
- Tailor confidentiality, IP, and data protection clauses to business needs.
- Translate commercial terms into enforceable contract language.
- Spot hidden risks in standard form agreements and propose remedial drafting.
- Establish redlining habits and version-control discipline for negotiations.
- Produce practical clause libraries and negotiation playbooks.
- Assess cross-border enforcement and governing law implications.

Studying Scenarios:

In this Advanced Legal Drafting for Commercial and Business Contracts training, participants will develop their skills through the analysis of the following scenarios:

- Drafting a master services agreement for a technology supplier with SLA and IP carve-outs.
- Rewriting a distributor agreement to protect pricing, territory, and termination rights.
- Negotiating a joint venture term sheet into binding documents while preserving exit routes.
- Redlining a SaaS customer agreement to limit indemnity and define data responsibilities.
- Preparing a supply contract that addresses force majeure and price escalation controls.
