Strategic Leadership and Corporate Governance for State-Owned Port Authorities

Ref: 16475_1071200 **Date:** 18 – 22 April 2027 **Location:** Muscat (Oman) **Fees:** 5500 Euro

Introduction:

This Strategic Leadership and Corporate Governance for State-Owned Port Authorities course provides an in-depth understanding of strategic leadership and corporate governance principles within state-owned port authorities. It explores how leaders can align governance frameworks with strategic objectives to enhance operational performance and accountability. Participants will examine leadership strategies for improving transparency, stakeholder trust, and sustainable growth.

The Strategic Leadership and Corporate Governance for State-Owned Port Authorities program integrates real-world governance practices from global port authorities. The training also emphasizes ethical decision-making, risk management, and long-term value creation. Participants will lead governance transformation in complex public sector environments.

Targeted Groups:

This Strategic Leadership and Corporate Governance for State-Owned Port Authorities training targets professionals seeking specialized knowledge and skills:

- Senior executives in port and maritime authorities.
- Board members and governance officers.
- Government officials in the transport and infrastructure sectors.
- Strategic planners and policy advisors.
- Legal and compliance managers.
- Corporate governance consultants.
- Department heads and senior project managers.
- Leadership development professionals in public enterprises.

Course Objectives:

Participants will achieve the following objectives by completing the Strategic Leadership and Corporate Governance for State-Owned Port Authorities course:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Understand the relationship between leadership strategy and corporate governance.
- Evaluate governance frameworks applicable to state-owned enterprises.
- Apply strategic decision-making tools in port operations.
- Strengthen ethical and accountable leadership practices.
- Develop skills for board governance and performance oversight.
- Manage stakeholder relations effectively.
- Implement governance reforms for transparency and efficiency.
- Foster sustainable development and institutional resilience.

Targeted Competencies:

Participants will gain the following competencies during the Strategic Leadership and Corporate Governance for State-Owned Port Authorities program:

- Strategic leadership and policy integration.
- Corporate governance and accountability.
- Risk management and compliance control.
- Stakeholder engagement and communication.
- Decision-making and ethical judgment.
- Organizational performance evaluation.
