Strategic Budget Planning & Control for Finance Teams

Ref: 121783_1078178 **Date:** 28 February – 4 March 2027 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4600 Euro

Introduction

Strategic budget planning and control are essential capabilities for finance professionals responsible for supporting organizational growth, financial stability, and informed decision-making. This Strategic Budget Planning & Control for Finance Teams course provides an understanding of modern budgeting principles, budget control techniques, financial planning processes, and performance management within different business environments. Participants will explore how strategic budgeting aligns financial resources with corporate objectives while improving operational efficiency and long-term financial sustainability. The program examines practical approaches to budget preparation, forecasting, variance analysis, financial reporting, cost management, and internal financial controls from a theoretical perspective. It explains how finance teams contribute to organizational planning by monitoring financial performance, identifying risks, and supporting continuous improvement initiatives. Participants will possess an understanding of strategic budget planning, financial control systems, and best practices that strengthen financial governance and business performance.
