MERCURY

Strategic Management and Leadership Program

Ref: 121436_1078798 **Date:** 8 – 12 March 2027 **Location:** Barcelona (Spain) **Fees:** 5600 Euro

Introduction

The Strategic Management and Leadership program equips professionals with the advanced strategic thinking and leadership capabilities essential for today's complex business landscape. This program bridges the gap between theoretical frameworks and practical strategic decision-making, enabling learners to lead organizations toward sustainable competitive advantage. Participants will explore strategic analysis tools, leadership principles, and real-world strategic planning processes that drive organizational performance. The curriculum integrates visionary leadership, stakeholder engagement, and adaptive strategy formulation to nurture influential leaders. Through a blend of conceptual depth and applied scenarios, participants will build confidence in shaping strategy and leading change. This program ultimately strengthens strategic insight and leadership competencies needed for success in dynamic environments.

Targeted Groups

This Strategic Management and Leadership training targets professionals seeking knowledge and skills:

- Mid-level managers striving for strategic leadership roles.
- Team leaders aiming to enhance organizational influence and performance.
- Emerging executives preparing for senior strategic decision-making.
- Strategic planners and analysts focused on competitive advantage.
- Entrepreneurs seeking leadership methods for business growth.
- Professionals aiming to strengthen organizational strategy and leadership capabilities.

Course Objectives

Participants will achieve the following objectives by completing the Strategic Management and Leadership course:

- Master foundational strategic management concepts and leadership theories.
- Analyze organizational environments using advanced strategic tools.
- Formulate effective strategic plans aligned with organizational goals.
- Evaluate internal capabilities and external market dynamics.
- Develop leadership styles suited for strategic influence and team motivation.
- Strengthen skills in decision-making and problem-solving in complex contexts.
- Cultivate agile thinking to adapt strategy amidst uncertainty.
- Integrate ethical leadership practices into strategic actions.
- Enhance communication of strategic priorities and stakeholder engagement.

Targeted Competencies

Participants will gain the following competencies during the Strategic Management and Leadership program:

- Strategic thinking and long-term organizational planning capabilities.
- Critical analysis of competitive environments and business ecosystems.
- Leadership skills that promote influence, accountability, and innovation.
- Effective decision-making in strategic, operational, and dynamic contexts.
- Competence in designing and implementing strategic plans.
- Communication strength to articulate vision, strategy, and change.
- Change leadership skills to guide teams through transitions.
- Ethical reasoning and responsible leadership practices.
- Ability to apply frameworks for performance measurement and evaluation.
- Insight into stakeholder analysis and strategic engagement strategies.

Studying Scenarios

In this Strategic Management and Leadership training, participants develop skills through the following scenarios:

- Scenario analysis of a company entering new competitive markets.
- Role-play on executive decision-making during disruptive change.
- Case study reviewing strategic planning execution in a multinational firm.
- Simulation of leadership communication in high-stakes stakeholder meetings.
- Strategic risk assessment exercise for an expanding business unit.
- Team challenge on aligning organizational culture with strategic priorities.
