Digital Leadership and Change Training Program

Ref: 16227_1080054 **Date:** 31 May – 4 June 2027 **Location:** London (UK) **Fees:** 5800 Euro

Introduction:

In today's rapidly evolving business environment, digital disruption is no longer a future possibility—it is a present reality. The Digital Leadership and Change training program equips leaders with the mindset, tools, and strategies necessary to navigate and lead through digital transformation.

With an emphasis on innovation, agility, and organizational readiness, this Digital Leadership and Change course supports participants in assessing their current digital maturity and crafting a vision for strategic change. Through hands-on learning, real-world examples, and expert insights, participants will be empowered to turn digital disruption into opportunity.

The Digital Leadership and Change program takes a holistic approach, considering impacts at the ecosystem, organizational, team, and personal levels. Each unit provides clear, actionable steps to lead sustainable innovation. Professionals will be well-prepared to guide their firms into the digital future with confidence.

Targeted Groups:

This Digital Leadership and Change training program targets professionals seeking specialized knowledge and skills:

- Senior managers and department heads are leading digital transformation.
- Digital project managers are driving innovation within their organizations.
- Business strategists and analysts are involved in change initiatives.
- IT leaders and chief digital officers are looking to align tech with strategy.
- HR professionals facilitate change management programs.
- Mid-level managers are preparing for digital leadership roles.
- Entrepreneurs seeking digital growth strategies.
- Government officials engaged in digital governance initiatives.
- Consultants advising organizations on digital maturity.
- Professionals from all sectors aiming to upskill in digital change.

Targeted Competencies:

Participants will gain the following competencies during the Digital Leadership and Change program:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Digital strategy development and alignment.
- Change management and transformation leadership.
- Innovation pipeline structuring and implementation.
- Critical thinking and digital problem-solving.
- Communication and persuasion for stakeholder buy-in.
- Agile leadership and adaptive thinking.
- Evaluation of digital capabilities and resources.
- Team empowerment during organizational change.

Course Objectives:

Participants will achieve the following objectives by completing the Digital Leadership and Change course:

- Identify key drivers and implications of digital disruption.
- Analyze organizational readiness for digital transformation.
- Evaluate existing digital innovation pipelines and processes.
- Apply structured methods to assess digital opportunities and threats.
- Design and implement fit-for-purpose solutions for transformation.
- Develop and communicate a compelling vision for change.
- Lead cross-functional teams through digital transitions effectively.
- Utilize practical tools to measure and track innovation progress.
- Pitch digital transformation strategies confidently to stakeholders.
- Reflect on personal leadership style and adapt it for the digital age.
- Integrate new skills into daily leadership practices to drive outcomes.
- Demonstrate increased agility, innovation, and strategic foresight.
