Building Alliances, Influencing Stakeholders, and Leading Change

Ref: 121769_1080316 **Date:** 7 – 11 June 2027 **Location:** London (UK) **Fees:** 5800 Euro

Introduction

This course, Building Alliances, Influencing Stakeholders, and Leading Change, explores the principles and practices required to build effective alliances in complex organizational environments. It provides an approach to influencing stakeholders through clear communication and strategic engagement. Participants will examine how leadership behaviors shape collaboration outcomes and organizational direction. The program focuses on managing change processes in dynamic and evolving systems. It emphasizes strengthening relationships that support sustainable organizational success. Learners will gain insight into integrating stakeholder engagement with change leadership for long-term impact.

Targeted Groups

This Building Alliances, Influencing Stakeholders, and Leading Change training targets professionals seeking knowledge and skills:

- Corporate managers developing strategic leadership influence.
- Project managers handling complex stakeholders.
- Change managers driving organizational transformation.
- HR professionals managing employee engagement.
- Government officers coordinating policy stakeholders.
- NGO leaders building strategic partnerships.
- Strategy consultants advising alliance building.
- Team supervisors improve workplace coordination.
- Senior executives leading organizational change.

Course Objectives

Participants will achieve the following objectives by completing the Building Alliances, Influencing Stakeholders, and Leading Change course:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Understand stakeholder mapping and stakeholder engagement principles effectively in organizational contexts.
- Apply stakeholder influence techniques to build trust and strategic alignment.
- Develop strategic alliances to strengthen organizational collaboration and partnerships successfully.
- Implement change management approaches to achieve sustainable organizational transformation outcomes.
- Enhance leadership capabilities to lead change in complex environments effectively.
- Analyze stakeholder expectations to consistently improve communication and engagement outcomes.
