Corporate Treasury Management Risk Strategies

Ref: 121807_1080336 **Date:** 1 – 5 February 2027 **Location:** Dar es Salaam (Tanzania) **Fees:** 5300 Euro

Introduction

The Corporate Treasury Management Risk Strategies course provides an understanding of how organizations manage financial risks, optimize liquidity, and strengthen treasury operations. It explores key principles of treasury risk management, cash flow control, funding strategies, and financial exposure management. Participants gain insights into developing effective treasury frameworks that support business stability and strategic decision-making. The program focuses on identifying financial risks, improving liquidity planning, and enhancing organizational resilience. It examines modern approaches to managing market risks, banking relationships, and corporate financial resources. Participants will develop the ability to support effective treasury governance and risk control practices.

Targeted Groups

This Corporate Treasury Management Risk Strategies training targets professionals seeking knowledge and skills:

- Treasury managers improve financial risk control practices.
- Finance professionals managing corporate liquidity operations.
- Accountants developing treasury management expertise.
- Banking specialists supporting corporate financial activities.
- Risk managers analyze financial exposures.
- Investment professionals managing treasury-related decisions.
- Business leaders strengthen financial strategies.
