Advanced Leadership Skills for Senior Professionals

Ref: 121445_1080929 **Date:** 29 November – 3 December 2026 **Location:** Cairo (Egypt) **Fees:** 3500 Euro

Introduction

The Advanced Leadership Skills for Senior Professionals course elevates the strategic leadership capabilities of experienced leaders operating in complex organizational environments. This training deepens understanding of advanced decision-making, organizational influence, and adaptive leadership for sustained performance excellence. Participants will engage with contemporary leadership frameworks that align with evolving business challenges and global workplace dynamics. Through theory-based learning, this program builds confidence in leading high-impact teams, driving innovation, and fostering cultures of accountability and growth. It emphasizes real strategic issues senior professionals face, enabling the transfer of knowledge to real organizational contexts. Participants will refine leadership approaches to influence outcomes, shape vision, and lead with clarity and purpose.

Targeted Groups

This Advanced Leadership Skills for Senior Professionals training targets professionals seeking knowledge and skills:

- Senior managers and department heads are navigating complex team dynamics.
- Directors leading cross-functional initiatives and organizational change.
- Executive leaders are responsible for enterprise-wide strategic outcomes.
- Mid-level leaders preparing for transition into executive roles.
- High-potential leaders are into strategic leadership.

Course Objectives

Participants will achieve the following objectives by completing the Advanced Leadership Skills for Senior Professionals course:

- Build insight into advanced strategic leadership theories and their practical application.
- Strengthen capabilities in leading transformational change and complex initiatives.
- Enhance skills in ethical leadership, organizational influence, and stakeholder alignment.
- Improve decision-making effectiveness under uncertainty and high-pressure scenarios.
- Refine communication approaches for executive leadership and board-level dialogues.
- Learn to cultivate resilient, high-performing teams in diverse cultural and functional contexts.
- Develop frameworks for ongoing leadership growth and performance measurement.
- Apply leadership best practices to systemic challenges affecting organizational agility and success.

Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

Unit 2: Strategic Decision-Making and Critical Thinking

- Understand the decision-making cycle and cognitive biases that influence outcomes.
- Explore frameworks for strategic choice under uncertainty and ambiguity.
- Practice scenario planning to anticipate future challenges and opportunities.
- Assess data-driven decision techniques for executive leadership contexts.
- Integrate risk management principles with leadership judgment and accountability.
- Apply systems thinking to solve complex organizational problems holistically.
- Learn to balance short-term performance pressures with long-term strategic priorities.
- Evaluate decisions using ethical, financial, and stakeholder impact criteria.

Unit 3: Organizational Influence and Stakeholder Leadership

- Define influence strategies for leadership without formal authority.
- Learn negotiation techniques applicable to senior leadership roles.
- Explore stakeholder mapping and engagement for enterprise initiatives.
- Examine power dynamics, political intelligence, and ethical influence.
- Develop persuasive communication skills for strategic alignment.
- Practice coalition building to support cross-functional and organizational goals.
- Address conflict resolution at an executive and inter-departmental level.
- Use feedback mechanisms to refine influence strategies in dynamic environments.

Unit 4: Leading High-Performing Teams and Culture

- Learn principles of team leadership for complex, high-stakes projects.
- Understand psychological safety and its impact on team performance.
- Explore inclusive leadership practices that drive engagement and diversity.
- Assess performance measurement and accountability systems for teams.
- Cultivate coaching techniques to develop emerging talent.
- Address conflict and resistance within teams to enhance cohesion.
- Design interventions to improve team productivity and collective problem-solving.
- Integrate cultural leadership to shape values, behaviors, and organizational norms.

Unit 5: Leading Change, Innovation & Organizational Agility

- Examine the lifecycle of organizational change and leadership roles at each stage.
- Understand frameworks for leading strategic change initiatives.
- Learn to foster innovation through vision, resources, and leadership support.
- Apply tools to manage resistance and sustain the momentum of change.
- Integrate digital leadership principles to advance organizational transformation.
- Practice real-world scenarios on agile leadership and adaptive strategy.
- Evaluate success metrics for change readiness and innovation outcomes.
- Design leadership action plans that align organizational strategy with change execution.
