Advanced Safety Leadership Skills Training

Ref: 15082_1083008 **Date:** 6 – 10 December 2026 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4600 Euro

Introduction:

Every safety professional must strive for safety excellence. This "must-attend" advanced safety leadership training course will provide you with powerful tools that, with effort, will enable you to make an expeditious and comprehensive difference to your workplace's safety culture upon returning to the organization.

A combination of advanced 'out-of-the-box' thinking, new human applications, and psychology will transform how you view and approach your future safety climate assignments. Suppose you are committed to safety excellence and wish to be a world-class agent for safety leadership. In that case, this Advanced Safety Leadership Course is for you.

What is Advanced Safety Leadership, and Why does it Matter:

Understanding safety leadership and why it's important serves as the foundation for effective safety leadership. Safety leadership is not merely about compliance; it's about creating a culture and environment where safety is a core value embraced by everyone.

Effective safety leadership involves a proactive approach, striving for advanced safety solutions, and ensuring that advanced safety features and systems are not only implemented but also embraced by all employees.

Targeted Groups:

- Directors and Departmental Heads.
- HSE managers and advisors.
- Those persons responsible for leading safety within an organization at a global, regional, or local level.
- Those seeking new concepts in aiming for zero exposure to workplace accidents, incidents, illness, and injuries, as well as others interested in developing safety leadership skills from tomorrow's best practices.
