Strategic Workforce Planning Masterclass

Ref: 121509_1083415 **Date:** 13 – 17 June 2027 **Location:** Amman (Jordan) **Fees:** 3300 Euro

Introduction

The Strategic Workforce Planning masterclass equips professionals with a structured approach to aligning workforce capabilities with long-term organizational goals. The course explores how to anticipate future talent needs in light of business strategy, operational demands, and market dynamics. Participants will gain a deep understanding of how workforce planning supports organizational resilience and sustainable growth. It focuses on transforming traditional HR practices into data-driven and predictive workforce strategies. The program emphasizes integrating analytics, forecasting models, and succession frameworks to optimize the allocation of human capital. Learners will be able to design and implement workforce strategies that enhance productivity and reduce talent gaps.

Targeted Groups

This Strategic Workforce Planning masterclass targets professionals seeking knowledge and skills:

- HR managers are responsible for workforce structure and planning decisions.
- Talent acquisition specialists manage recruitment forecasting.
- Organizational development professionals focus on workforce alignment.
- Business leaders are involved in strategic resource planning.
- HR analysts work with workforce data and reporting systems.
- Government HR planners manage public sector staffing needs.
- Consultants advising on workforce planning and organizational design.

Course Objectives

Participants will achieve the following objectives by completing the Strategic Workforce Planning course:

- Understand strategic workforce planning principles and organizational alignment methods.
- Analyze workforce demand and supply using forecasting and analytical tools.
- Develop effective workforce planning strategies aligned with business goals.
- Apply HR analytics to identify talent gaps and future workforce needs.
- Design succession planning frameworks for critical organizational roles.
- Evaluate workforce optimization techniques for cost efficiency and productivity.
- Implement strategic workforce models to support long-term business sustainability.
- Strengthen decision-making in HR planning through data-driven insights.
