MERCURY

High-Performance Team Communication Development Workshop

Ref: 121515_1084119 **Date:** 16 – 20 November 2026 **Location:** London (UK) **Fees:** 5800 Euro

Introduction

High-performance teams rely on structured communication systems that improve clarity, trust, and execution quality across all levels. This High-Performance Team Communication Development workshop strengthens professional communication skills that directly impact workplace efficiency and team alignment. Participants will explore how communication influences productivity, collaboration, and decision-making in modern organizations. It focuses on developing practical approaches to reduce misunderstandings and enhance message clarity. It also highlights the role of leadership communication in building motivated and engaged teams. Participants will understand how to create a consistent communication culture that supports high-performing teams and sustainable organizational success.

Targeted Groups

This High-Performance Team Communication Development training targets professionals seeking knowledge and skills:

- Team leaders aiming to improve workplace communication training outcomes.
- Managers are responsible for coordinating cross-functional teams.
- HR professionals focus on employee engagement and collaboration.
- Project managers handling high-performance teams in dynamic environments.
- Supervisors are improving leadership communication effectiveness.
- Professionals involved in corporate communication roles.
- Remote team coordinators manage virtual communication systems.

Workshop Objectives

Participants will achieve the following objectives by completing the High-Performance Team Communication Development workshop:

- Understand core principles of effective communication strategies in teams.
- Improve clarity in verbal and written workplace communication.
- Apply structured methods for conflict resolution in team settings.
- Strengthen leadership communication for better team alignment.
- Enhance collaboration in cross-functional and hybrid teams.
- Identify barriers that reduce communication effectiveness.
- Develop skills to improve team productivity through clear messaging.
- Build trust-based communication practices within teams.
- Use feedback techniques to improve performance outcomes.
- Apply high-performance communication models in real workplace scenarios.

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

Targeted Competencies

Participants will gain the following competencies during the High-Performance Team Communication Development program:

- Advanced workplace communication and active listening skills.
- Team collaboration and coordination techniques.
- Conflict management and resolution strategies.
- Leadership communication for high-performance teams.
- Effective virtual and remote communication skills.
- Organizational communication alignment practices.
- Decision-making communication clarity.
- Employee engagement through structured messaging.

Studying Scenarios

In this High-Performance Team Communication Development training, participants develop skills through the following scenarios:

- Miscommunication cases in project teams affect deadlines and outcomes.
- Leadership breakdowns are impacting employee engagement and trust.
- Challenges in remote team coordination in distributed workplaces.
- Cross-functional conflicts require structured resolution approaches.
- Communication gaps between management and operational staff.
