Finance Leadership & Decision-Making

Ref: 121805_1084989 **Date:** 21 – 25 February 2027 **Location:** Amman (Jordan) **Fees:** 3300 Euro

Introduction

Organizations require finance leaders who can transform financial information into confident, strategic business decisions that support sustainable growth and long-term performance. The Finance Leadership & Decision-Making course develops an understanding of financial leadership, business finance, strategic planning, and decision-making within dynamic organizational environments. Participants will explore how financial analysis, budgeting, forecasting, risk evaluation, and performance measurement contribute to effective leadership and organizational success. The program examines how finance professionals communicate financial insights, influence stakeholders, and align financial objectives with corporate strategy. It strengthens analytical thinking while improving confidence in evaluating financial opportunities and organizational challenges. Participants will possess a framework for leading financial decisions that improve operational efficiency, profitability, and long-term value creation.

Targeted Groups

This Finance Leadership & Decision-Making training targets professionals seeking knowledge and skills:

- Finance managers and supervisors.
- Financial controllers and analysts.
- Budget and planning professionals.
- Department managers with financial responsibilities.
- Business unit leaders and executives.
- Corporate strategy professionals.
- Project and operations managers.
- Professionals preparing for finance leadership positions.
- Decision-makers are responsible for organizational performance.
