Financial Governance and Risk Management

Ref: 121826_1084997 **Date:** 9 – 13 May 2027 **Location:** Amman (Jordan) **Fees:** 3300 Euro

Introduction

The Financial Governance and Risk Management course provides an understanding of the principles, frameworks, and practices to strengthen financial decision-making and organizational resilience. It explores how effective financial governance systems support transparency, accountability, compliance, and sustainable business performance. It examines the relationship between financial governance, enterprise risk management, internal controls, and strategic planning processes. Participants will gain the ability to identify financial risks, evaluate control mechanisms, and develop approaches to improve financial stability. The program focuses on modern governance practices that help organizations manage uncertainty and protect financial resources. Learners will understand how to establish strong financial governance structures and effective risk management strategies.

Targeted Groups

This Financial Governance and Risk Management training targets professionals seeking knowledge and skills:

- Finance managers are improving governance and risk control practices.
- Accountants developing financial risk management capabilities.
- Internal auditors are strengthening financial oversight processes.
- Risk professionals are enhancing their enterprise risk assessment skills.
- Compliance officers manage financial regulations and controls.
- Executives making strategic financial decisions.
- Managers are improving organizational accountability and transparency.
