The Oxford Healthcare Leadership Program

Ref: 15074_278987 **Date:** 22 November – 3 December 2026 **Location:** Cairo (Egypt) **Fees:** 6000 Euro

Introduction:

This Oxford Healthcare Leadership Program is a multidimensional training course designed to enhance leadership capabilities in the healthcare sector. Delivered in a workshop setting, it promotes the exchange of ideas and best practices among healthcare professionals and underscores the critical role of effective leadership in the delivery of quality healthcare services.

In the first week, participants will delve into the global healthcare leadership context, examining the ramifications of events such as the COVID-19 pandemic on organizations, communities, and clinical and non-clinical staff members in various countries.

The second week focuses on refining the attendees' leadership skills, such as understanding the interplay between leadership and followership, exploring various healthcare leadership styles, embracing new leadership techniques, appreciating the significance of communication with stakeholders, fostering innovation, and recognizing the influence of organizational culture on the quality of care.

Targeted Groups:

- Managers and clinicians are jointly responsible for leading healthcare organizations.
- Professionals are ensuring the provision of quality care.
- Line and Functional Managers, Team Leaders, and Supervisors.
- Managers and leaders are new to leadership roles in healthcare leadership organizations.
- Experienced managers and leaders aim to enhance their leadership capabilities with healthcare leadership solutions.

Course Objectives:

By the end of this healthcare leadership development program, participants will be able to:

- Analyze leadership theory and practice within global healthcare leadership.
- Develop their confidence and self-awareness as leaders.
- Gain insights into current challenges faced by healthcare management.
- Comprehend the intricacies of organizational functioning.
- Recognize the impact of organizational culture on innovation and care delivery.
