Strategic Planning, Development & Implementation in Banks

Ref: 15185_283100 **Date:** 28 December 2026 – 1 January 2027 **Location:** Rome (Italy) **Fees:** 6200 Euro

Introduction:

Effective strategic leadership is fundamental to the continued success of any banking institution. Forming a distinct strategic vision provides a foundation for future endeavors and sets forth the organization's direction. For a vision to transcend into actionable strategies, it should serve as a comprehensive roadmap, enabling decision-makers at various levels to align their decisions with the bank's overarching goals.

This strategic planning and implementation for the banking industry development course allows strategic leaders and professionals to formulate, execute, and manage the required changes to effectively implement a new strategic direction. It emphasizes the development of essential strategies and plans.

The strategic planning and implementation for the banking industry development training will focus on extending deeply within the organization to techniques that ensure workforce alignment with proposed changes, encourage active participation in addressing challenges, and realize new strategic initiatives.

Incorporating Big Data and Development in Banking Strategic Planning:

In the banking world, leveraging big data and staying abreast of developments in banking are critical aspects that need to be integrated into the strategic planning process. By implementing big data analytics, banks can gain valuable insights that enable more informed decision-making, risk assessment, and customer service enhancement. Incorporating this technological advancement into the bank's strategic plan is essential for remaining competitive in the rapidly evolving financial sector.

Targeted Groups:

- Head of departments.
- Strategic Planning department.
- Managers at all levels.
- Supervisors and Team leaders.
- Employees looking to enhance strategic skills for career advancement.
