Effective Accounts Receivable Management (ARM)

Ref: 15385_298402 **Date:** 12 – 16 September 2027 **Location:** Dubai (UAE) **Fees:** 4600 Euro

Introduction:

This effective accounts receivable management ARM training course focuses on the critical component of a firm's financial management: accounts receivable. In simple terms, accounts receivable management encompasses the strategies, methods, and processes employed to oversee monies owed by clients to a company for products or services rendered on credit.

This effective accounts receivable management ARM course aims to provide a thorough grasp of ARM. It will cover the core principles, practical techniques, and advanced solutions that constitute best practices in the field.

Discuss the value of obtaining certification in accounts receivable management and how it underscores the professional standards and expertise in the field. The importance and benefits of effective accounts receivable management elaborate on the countless benefits of applying effective accounts receivable management techniques, including enhancing financial stability and customer satisfaction.

Targeted Groups:

This effective accounts receivable management ARM course will benefit finance and accounting professionals, credit managers, and anyone managing a company's accounts receivable function.

Course Objectives:

By the end of this effective accounts receivable management ARM course, participants will be able to:

- Grasp the essential role of accounts receivable management in maintaining the financial stability of an organization.
- Adopt best practices to manage and control accounts receivable efficiently.
- Implement monitoring and analytical tools to identify emerging problems and swiftly initiate corrective measures.
- Comprehend the profound implications of accounts receivable on a company's financial condition.
- Formulate and institute an optimal accounts receivable strategy tailored to the needs of their organization.

Targeted Competencies

Participants in this effective accounts receivable management ARM training will refine competencies in:

Dubai - UAE: +971 4 450 5697
Istanbul - Türkiye: +90 539 599 1206
Amman - Jordan: +962 79 712 3347

- Financial analysis and informed decision-making.
- Advanced risk management tactics.
- Effective communication and collaboration strategies.
- Time management for optimal workflows.
