Advanced Techniques in Agricultural Extension Service Delivery and Management

Ref: 15660_319517 **Date:** 12 – 23 September 2027 **Location:** Online **Fees:** 3200 Euro

Introduction:

This Advanced Techniques in Agricultural Extension Service Delivery and Management course is designed for professionals and stakeholders involved in agricultural extension services. It aims to equip participants with knowledge and practical skills to enhance the effectiveness of agricultural extension, focusing on innovative service delivery methods and management techniques.

This Advanced Techniques in Agricultural Extension Service Delivery and Management course emphasizes advanced techniques for defining agricultural extension services and their role in agriculture. Agricultural extension services play a role in the growth of the agricultural sector. Participants will explore the meaning of agricultural extension and understand its purpose in fostering innovation and knowledge dissemination among farming communities.

Participants in this Advanced Techniques in Agricultural Extension Service Delivery and Management training will elucidate the principles of agricultural extension and its importance by examining real-world applications and evaluating the outcomes of agricultural extension models. The essence of agricultural extension will be further explained through interactive sessions, ensuring participants can clarify the meaning and relevance of the terms in modern agriculture.

Target Groups:

- Agricultural extension officers.
- Rural development practitioners, agricultural advisors, NGOs, and government officials.
- Researchers and other stakeholders involved in agricultural extension services.

Course Objectives:

At the end of this Advanced Techniques in Agricultural Extension Service Delivery and Management course, the participants will be able to:

- Understand the role and importance of agricultural extension services.
- Implement effective service delivery strategies tailored to diverse stakeholders.
- Enhance communication and outreach techniques for better farmer engagement.
- Develop and execute farmer education and training programs.
- Monitor and evaluate agricultural extension programs to assess impact and improve service delivery.
