Municipal Public Policy-Making: International Experiences

Ref: 15930_338969 **Date:** 31 January – 4 February 2027 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4900 Euro

Introduction:

Municipal public policy-making is critical in shaping cities' development, governance, and sustainability worldwide. This Municipal Public Policy-Making: International Experiences course explores frameworks for developing and implementing effective municipal policies, emphasizing the importance of stakeholder engagement and participatory decision-making processes.

The Municipal Public Policy-Making: International Experiences course highlights global best practices and benchmarks successful municipal policy designs from diverse regions. By examining international experiences, participants will gain valuable insights into how local governments can navigate complex challenges, engage communities, and implement policies that drive positive urban transformation. They will be equipped with the tools to adapt innovative solutions to their municipal contexts.

This Municipal Public Policy-Making: International Experiences training explores the process of public policy-making, with a focus on municipal public safety and municipal public relations. Participants will examine the definition, principles, and methodologies of public policy-making and address the challenges of public policy-making in diverse municipal contexts.

Through case studies and international experiences, the Municipal Public Policy-Making: International Experiences course highlights effective strategies in municipal policy-making and offers insights into what works and why. By understanding public policy and analyzing its complexities, attendees will gain practical tools to enhance the process within their local governments.

Targeted Groups:

- Local government officials and policymakers.
- Urban planners and city development professionals.
- Community leaders and civic organizations.
- Public policy researchers and analysts.
- International development professionals.
- Students and academics in public administration and urban studies.
- Consultants working in municipal governance and policy design.
- Non-governmental organizations NGOs focused on urban issues.

Course Objectives:

At the end of this Municipal Public Policy-Making: International Experiences course, the participants will be able to:

- Understand the key frameworks for developing and implementing municipal policies.
- Learn effective strategies for engaging stakeholders in the policymaking process.
- Explore participatory approaches to policymaking and community involvement.
- Analyze and apply global best practices in municipal policy design.
- Evaluate the effectiveness of municipal policies through case studies and benchmarks.
- Enhance skills in adapting international policy models to local urban contexts.
- Foster a deeper understanding of governance structures in municipal settings.
- Build capacity for collaboration across various levels of government and civil society.
- Develop the ability to assess the impact and sustainability of municipal policies.

Targeted Competencies:

By the end of this Municipal Public Policy-Making: International Experiences training, the participant's competencies will:

- Ability to design and implement effective municipal policies.
- Skills in stakeholder engagement and fostering participatory decision-making.
- Knowledge of global best practices in municipal policy design.
- Competence in evaluating and benchmarking policy outcomes.
- Understanding of urban governance frameworks and structures.
- Capacity to adapt international policy models to local contexts.
- Proficiency in managing multi-stakeholder collaboration.
- Analytical skills for assessing policy impact and sustainability.

Course Content:
