Banking Operations and Back Office Management

Ref.: 16170_1009233 **Date:** 28 Mar - 01 Apr 2027 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4600 Euro

Introduction to Banking Operations and Back Office Management:

In today's rapidly evolving financial landscape, efficient banking operations and robust back-office management are crucial for ensuring the seamless functioning of financial institutions. This Banking Operations and Back Office Management course equips professionals with the operational know-how and technical understanding required to support core banking functions. It delves into the full transaction lifecycle, from client onboarding and transaction processing to risk management and compliance procedures.

Participants will explore best practices in document control, reconciliation, reporting, and the use of automation tools. The Banking Operations and Back Office Management training emphasizes the critical role of back office teams in sustaining operational efficiency, minimizing risks, and ensuring regulatory compliance. It also addresses current trends and digital transformation in banking services. They will support banking operations with increased accuracy, accountability, and efficiency.

Targeted Groups:

This Banking Operations and Back Office Management training course targets professionals seeking specialized knowledge and skills:

- Entry-level to mid-level bank employees.
- Back office executives and operations officers.
- Financial service administrators.
- Staff working in transaction processing and settlements.
- Internal auditors in banks and financial institutions.
- Compliance and documentation officers.
- Customer service representatives in financial environments.
- Professionals transitioning into the banking sector.
- New hires in financial institutions.
- Individuals preparing for roles in bank operations or support services.

Course Objectives:

Participants will achieve the following objectives by completing the Banking Operations and Back Office Management course:

- Understand the core structure of banking operations.
- Identify the role of back office departments in daily transactions.
- Apply risk mitigation strategies during transaction handling.
- Analyze documentation and compliance requirements effectively.
- Demonstrate accurate data entry and reconciliation processes.
- Execute end-to-end account management tasks.
- Utilize operational reporting tools for performance tracking.
- Examine fraud prevention controls in operational workflows.
- Implement automation techniques to streamline back office functions.
- Improve customer service through operational efficiency.
- Evaluate regulatory changes and adapt operational procedures accordingly.
- Monitor service-level agreements SLAs and operational key performance indicators KPIs.
- Develop workflows for clearing, settlements, and payments.
- Build cross-functional collaboration skills.
- Establish quality assurance practices across banking operations.
- Enhance decision-making using structured operational data.
- Perform periodic audits and process checks.
- Contribute to digital transformation initiatives in back office processes.

Targeted Competencies:

Participants will gain the following competencies during the Banking Operations and Back Office Management program:

- Proficiency in end-to-end banking operations.
- Accuracy in handling transactions and reconciliations.
- Awareness of compliance and risk protocols.
- Competence in document management and reporting.
- Understanding of banking systems and software.
- Skill in operational problem-solving.
- Knowledge of process automation and optimization.
- Capability to interpret financial and regulatory data.
- Communication and coordination with the front and middle office.
- Service delivery through operational excellence.
