14 - 18 Dec 2026
Geneva (Switzerland)

Digital Transformation Leadership Training Conference

Ref.: 16236_1011828 **Date:** 14 - 18 Dec 2026 **Location:** Geneva (Switzerland) **Fees:** 6500 Euro

Introduction:

The Digital Transformation Leadership training conference is a specialized professional development event that equips business and technology leaders with the strategic insights and competencies needed to lead digital transformation efforts. As organizations face the rapid evolution of technology and shifting market expectations, leaders must align digital innovation with their business strategy.

This Digital Transformation Leadership conference examines the pivotal role of leadership in driving enterprise-wide transformation, enhancing agility, and fostering a culture of innovation. Through real-world case studies, best practices, and hands-on strategy sessions, participants will acquire practical tools to lead change effectively.

The Digital Transformation Leadership conference focuses on strategic planning, emerging technologies, digital maturity assessments, and data-driven decision-making. It addresses key barriers and success factors for scaling digital initiatives, enabling attendees to drive sustained digital growth and foster long-term business impact.

Targeted Groups:

This Digital Transformation Leadership training targets professionals seeking specialized knowledge and skills:

- C-level executives and business decision-makers.
- Digital transformation managers and innovation officers.
- IT directors and technology strategists.
- Change management consultants.
- Strategic planners and corporate development teams.
- Project and program managers oversee transformation.
- HR and training managers supporting digital upskilling.
- Leaders responsible for customer experience and digital services.
- Consultants working in digital innovation and organizational change.
- Government officials and public sector leaders are modernizing operations.

Targeted Competencies:

Participants will gain the following competencies during the Digital Transformation Leadership program:

- Strategic thinking and digital planning.
- Organizational change leadership.
- Technology awareness and business integration.
- Decision-making using data analytics.
- Communication and stakeholder engagement.
- Risk assessment and mitigation in transformation.
- Agile and adaptive leadership capabilities.
- Digital maturity evaluation and KPI setting.

- Innovation-driven mindset and digital ethics.

Conference Objectives:

Participants will achieve the following objectives by completing the Digital Transformation Leadership conference:

- Define digital transformation within the context of business value.
- Identify the core technologies and trends that are shaping digital innovation.
- Analyze industry-specific digital transformation case studies.
- Assess their organization's digital maturity and readiness.
- Develop a strategic vision that aligns with your business objectives.
- Prioritize initiatives that deliver measurable transformation outcomes.
- Apply resource and budget planning to digital programs.
- Evaluate leadership strategies that support digital-first cultures.
- Design communication plans that effectively manage digital change.
- Motivate and engage teams during periods of transformation.
- Monitor performance using KPIs aligned with strategic goals.
- Measure ROI from digital transformation projects.
- Optimize digital strategy using feedback and performance data.
- Scale transformation initiatives across departments.
- Forecast future leadership and technology trends.
