Ref: 121269_1025263 **Date:** 11 – 15 July 2027 **Location:** Amman (Jordan) **Fees:** 4200 Euro

Introduction

The Business Strategy & Planning for Managers course provides professionals with essential tools to design, implement, and evaluate effective business strategies. Participants will explore methods to align organizational goals with strategic planning processes. The course emphasizes practical frameworks for decision-making, market analysis, and resource allocation. It offers insights into competitive positioning and long-term business growth. Participants will develop skills to anticipate market trends and respond proactively. This program combines theoretical knowledge with practical applications to enhance managerial effectiveness and strategic thinking.

Targeted Groups

This Business Strategy & Planning for Managers course targets professionals seeking specialized knowledge and skills:

- Mid-level and senior managers aiming to refine strategic planning capabilities.
- Business analysts are involved in corporate growth initiatives.
- Department heads are responsible for operational alignment with strategy.
- Project managers need strategic oversight skills.
- Entrepreneurs and business owners are planning long-term growth.
- Professionals in corporate planning, finance, or consulting roles.

Course Objectives

Participants will achieve the following objectives by Business Strategy & Planning for Managers:

- Develop strategic thinking and planning skills.
- Analyze market trends to inform business decisions.
- Align operational activities with organizational objectives.
- Apply tools for resource allocation and performance monitoring.
- Design actionable strategies for competitive advantage.
- Enhance decision-making under uncertainty.
- Improve cross-functional collaboration and team leadership.
- Implement strategic initiatives effectively.
- Evaluate outcomes to ensure continuous improvement.

Targeted Competencies

Participants will gain the following competencies during the program:

- Strategic analysis and problem-solving abilities.
- Effective business planning and forecasting skills.
- Understanding of market and competitive dynamics.
- Resource management and prioritization.
- Decision-making in complex business scenarios.
- Leadership in strategy implementation.
- Communication and presentation of strategic plans.
- Risk assessment and mitigation strategies.
- Monitoring and evaluation of business performance.

Studying Scenarios

In this training, participants will develop their skills through the analysis of the following scenarios:

- Creating a five-year strategic plan for a growing enterprise.
- Evaluating market expansion opportunities for a product line.
- Resolving resource allocation conflicts in cross-functional teams.
- Analyzing competitor strategies and adjusting business plans.
- Responding to sudden market disruptions with strategic initiatives.
- Designing KPIs to measure strategic performance.
- Aligning departmental objectives with overall corporate goals.
