Strategic Workforce Planning Masterclass

Ref.: 121509_1035659 **Date:** 28 Jun - 02 Jul 2026 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4600 Euro

Introduction

The Strategic Workforce Planning masterclass equips professionals with a structured approach to aligning workforce capabilities with long-term organizational goals. The course explores how to anticipate future talent needs in light of business strategy, operational demands, and market dynamics. Participants will gain a deep understanding of how workforce planning supports organizational resilience and sustainable growth. It focuses on transforming traditional HR practices into data-driven and predictive workforce strategies. The program emphasizes integrating analytics, forecasting models, and succession frameworks to optimize the allocation of human capital. Learners will be able to design and implement workforce strategies that enhance productivity and reduce talent gaps.

Targeted Groups

This Strategic Workforce Planning masterclass targets professionals seeking knowledge and skills:

- HR managers are responsible for workforce structure and planning decisions.
- Talent acquisition specialists manage recruitment forecasting.
- Organizational development professionals focus on workforce alignment.
- Business leaders are involved in strategic resource planning.
- HR analysts work with workforce data and reporting systems.
- Government HR planners manage public sector staffing needs.
- Consultants advising on workforce planning and organizational design.

Course Objectives

Participants will achieve the following objectives by completing the Strategic Workforce Planning course:

- Understand strategic workforce planning principles and organizational alignment methods.
- Analyze workforce demand and supply using forecasting and analytical tools.
- Develop effective workforce planning strategies aligned with business goals.
- Apply HR analytics to identify talent gaps and future workforce needs.
- Design succession planning frameworks for critical organizational roles.
- Evaluate workforce optimization techniques for cost efficiency and productivity.
- Implement strategic workforce models to support long-term business sustainability.
- Strengthen decision-making in HR planning through data-driven insights.

Targeted Competencies

Participants will gain the following competencies during the Strategic Workforce Planning program:

- Ability to conduct workforce gap analysis and forecasting.
- Proficiency in workforce planning models and strategic HR tools.
- Skills in interpreting HR analytics for decision-making.

- Capability to design succession and talent pipelines.
- Competence in aligning workforce strategy with business objectives.
- Understanding of organizational workforce structure optimization.
- Skills in scenario-based workforce planning and risk assessment.

Studying Scenarios

In this Strategic Workforce Planning training, participants develop skills through the following scenarios:

- A multinational company is facing rapid expansion and needs workforce scaling strategies.
- Public institution facing an aging workforce and succession-planning challenges.
- Tech organization struggling with talent shortages in critical roles.
- Manufacturing company optimizing workforce costs through restructuring.
