Leadership Success in Professional Project Planning Training

Ref.: 121589_1039208 **Date:** 07 - 11 Sep 2026 **Location:** Casablanca (Morocco) **Fees:** 4500 Euro

Introduction

The Leadership Success in Professional Project Planning course strengthens leadership capabilities and improves strategic project planning skills in modern business environments. It focuses on integrating leadership principles, project management methodologies, communication strategies, and performance-driven planning techniques for successful project execution. Participants will explore how professional leaders align project goals with organizational objectives while maintaining efficiency, accountability, and team collaboration. The program examines risk management, stakeholder engagement, resource allocation, and decision-making processes that influence project success across multiple industries. It emphasizes developing leadership confidence, planning accuracy, and practical management approaches for complex projects and business operations. Through structured theoretical learning, participants gain the knowledge needed to lead projects professionally, improve operational performance, and support sustainable organizational growth.

Targeted Groups

This Leadership Success in Professional Project Planning training targets professionals seeking knowledge and skills:

- Project managers and project coordinators.
- Team leaders managing operational projects.
