Innovation & Digital Transformation Leadership

Ref.: 121605_1039939 **Date:** 12 - 16 Oct 2026 **Location:** Geneva (Switzerland) **Fees:** 6500 Euro

Introduction

The Innovation & Digital Transformation Leadership course equips professionals with advanced knowledge of innovation management, digital leadership strategies, and modern business transformation practices in highly competitive environments. It explores how organizations accelerate growth through digital innovation, strategic leadership, agile transformation, and technology-driven decision-making. Participants examine practical approaches for leading organizational change, improving operational efficiency, and fostering a culture of continuous innovation across departments. The program highlights emerging trends in digital transformation strategy, customer-centric innovation, data-driven leadership, and smart business models that support sustainable competitive advantage. It focuses on leadership capabilities to manage transformation initiatives, digital disruption, workforce adaptation, and cross-functional collaboration in evolving industries. Through structured theoretical learning, participants strengthen their ability to align innovation goals with organizational strategy while supporting long-term digital business success.

Targeted Groups

This Innovation & Digital Transformation Leadership training targets professionals seeking knowledge and skills:

- Executive leaders managing digital transformation initiatives.
- Innovation managers leading organizational development projects.
- Department heads supervising technology-driven operations.
- Business transformation specialists improving strategic performance.
- Project managers handling innovation implementation programs.
- HR leaders supporting digital workplace transformation.
- Strategy professionals driving organizational modernization.
- Operations managers improving efficiency through digital solutions.
- Entrepreneurs building innovation-focused business models.
- Consultants advising organizations on transformation strategy.
- Public sector administrators managing modernization initiatives.
- Professionals seeking leadership skills in digital innovation.

Course Objectives

Participants will achieve the following objectives by completing the Innovation & Digital Transformation Leadership course:

- Understand modern innovation leadership principles.
- Analyze digital transformation frameworks across industries.
- Evaluate organizational readiness for digital change.
- Develop strategic innovation planning capabilities.
- Improve decision-making using business intelligence insights.
- Examine digital disruption and competitive positioning.
- Strengthen leadership approaches during organizational transformation.

- Identify methods for building innovative workplace cultures.
- Assess operational efficiency through digital technologies.
- Explore agile leadership and adaptive management practices.
- Improve customer experience through digital innovation strategies.
- Examine data-driven performance improvement methods.
- Understand risk management in transformation projects.
- Enhance collaboration across digital business environments.
- Support sustainable growth through innovation strategies.
- Evaluate emerging technologies influencing business leadership.
- Strengthen strategic thinking for future-focused organizations.

Targeted Competencies

Participants will gain the following competencies during the Innovation & Digital Transformation Leadership program:

- Strategic innovation management skills.
- Digital transformation leadership capabilities.
- Organizational change management techniques.
- Agile decision-making and adaptive leadership.
- Business process improvement knowledge.
- Innovation-driven strategic planning abilities.
- Cross-functional collaboration and communication skills.
- Technology integration and operational alignment expertise.
- Data interpretation for business performance analysis.
- Customer-centric innovation development capabilities.
- Leadership skills for digital workplace transformation.
- Risk assessment in innovation initiatives.
- Performance optimization and productivity improvement skills.
- Strategic problem-solving in dynamic business environments.

Studying Scenarios

In this Innovation & Digital Transformation Leadership training, participants develop skills through the following scenarios:

- Executive teams coordinate digital transformation programs across interconnected departments.
- Customer satisfaction increases through the implementation of innovative digital solutions.
- Organizational resistance during the adoption of new technologies.
- Operational workflows through advanced automation initiatives.
- Competitive positioning improves through the development of strategic innovation plans.
- Agile leadership practices support efficiency during organizational transformation efforts.
- Strategic business objectives with enterprise-wide digital initiatives.
