Strategic Community Relations, Engagement, and Development

Ref.: 121866_1055488 **Date:** 07 - 11 Mar 2027 **Location:** Online **Fees:** 1900 **Euro**

Introduction

The Strategic Community Relations, Engagement, and Development course explains how organizations build productive, responsible, and sustainable relationships with the societies in which they operate. It examines stakeholder expectations, community engagement strategies, corporate social responsibility, reputation, risk anticipation, and corporate communication. Participants explore practical approaches for designing community programs, integrating participation into organizational activities, and supporting education, health, safety, procurement, and capacity development. The program introduces community development processes, participatory learning and action, community volunteers, interpersonal communication, facilitation, and community mobilization techniques. It evaluates community initiatives through KPIs, performance measurement, and integrated reporting. Participants will connect community priorities with organizational objectives while strengthening trust, social value, stakeholder relationships, and long-term organizational reputation.

Targeted Groups

This Strategic Community Relations, Engagement, and Development training targets professionals seeking knowledge and skills:

- Community relations managers strengthen stakeholder relationships.
- CSR professionals align social responsibility with engagement.
- Sustainability officers address community expectations and risks.
- Corporate communication teams improve dialogue and reputation.
- Public affairs professionals manage stakeholder engagement strategies.
- Project leaders integrate community participation into planning.
- HR leaders encourage employee community engagement.
- NGO and partnership managers support community development.
- Executives oversee strategic social investment and reporting.

Course Objectives

Participants will achieve the following objectives by completing the Strategic Community Relations, Engagement, and Development course:

- Explain the foundations of community relations and society engagement.
- Distinguish CSR activities from strategic community engagement.
- Identify stakeholders, expectations, influence, and reputational risks.
- Design structured stakeholder engagement programs.
- Develop community engagement plans with clear priorities.
- Apply budgeting principles to social investment initiatives.
- Strengthen corporate communication with local communities.
- Integrate health, safety, education, procurement, and capacity development.
- Compare community contribution and community-driven projects.
- Explain participatory approaches to community development.
- Apply PLA principles and participatory tools conceptually.

- Demonstrate effective presentation, communication, facilitation, and role-play skills.
- Define community volunteer responsibilities.
- Plan community mobilization events and communication activities.
- Establish KPIs for community programs and assess outcomes.
- Connect evaluation findings with integrated reporting and organizational reputation.

Targeted Competencies

Participants will gain the following competencies during the Strategic Community Relations, Engagement, and Development program:

- Stakeholder mapping and expectation analysis.
- Community engagement strategy development.
- Corporate social responsibility alignment.
- Reputation and risk assessment.
- Community program design and budgeting.
- Corporate-community communication.
- Local procurement and capacity development planning.
- Participatory community development analysis.
- PLA tool selection and process understanding.
- Presentation, facilitation, and dialogue skills.
- Volunteer coordination and employee engagement.
- Community mobilization planning.
- KPI development, evaluation, and reporting.

Studying Scenarios

In this Strategic Community Relations, Engagement, and Development training, participants develop skills through the following scenarios:

- A company identifies key stakeholders before a project.
- A community raises concerns about environmental hazards and reputation.
- Managers design a local procurement and education initiative.
- Leaders coordinate disaster support with communities.
- Teams conduct a participatory dialogue using PLA tools.
- Employees plan a community mobilization event.
- Executives review KPIs and prepare an integrated community report.
