Governance, Risk Management, and Compliance (GRC)

Ref.: 15304_245874 **Date:** 03 - 14 Feb 2025 **Location:** London (UK) **Fees:** 9300 **Euro**

Introduction:

Corporate and public entities increasingly recognize the importance of governance, risk management, and compliance GRC in aligning organizational objectives and operations. Effective governance risk management and compliance systems integrate these three elements to ensure that an organization manages its risks effectively and complies with relevant laws and regulations.

This governance, risk management, and compliance GRC course will delve into different corporate governance and risk management models, the essence of compliance, particularly in light of the definition of governance risk management and compliance, and the significance of cohesive internal controls all part of an integrated GRC framework.

Attendees will explore topics ranging from board structure and its committees to managing risks by the Committee of Sponsoring Organizations of the Treadway Commission COSO requirements and from discussing internal controls to compliance with the latest developments.

Targeted Groups:

- Corporate Governance Officers / Professionals.
- CEOs, Executive Directors.
- Board Members, Committee Members.
- Board Secretaries.
- Chairs, Committee Chairs.
- Senior management and Middle management.
- Risk / Compliance Management Functions.
- Internal Audit Functions, Internal Control Functions.
- Corporate Affairs, Legal.
- Strategic Planning Officers / Professionals.

Course Objectives:

After this governance, risk management, and compliance GRC course, participants will be able to:

- Define the relation and interaction between corporate/public governance, risk management, and internal controls.
- Discuss the roles and responsibilities of various stakeholders within both private and public companies.
- List the core functions of corporate/public governance and distinguish between the different governance models.
- Identify the principal areas of risk management, considering evolving external and internal environmental factors.
- Determine appropriate controls to implement within private or public sector entities.
