

## Shutdowns, Turnarounds, and Outages Training Conference

23 - 27 Sep 2024  
Geneva (Switzerland)

# Shutdowns, Turnarounds, and Outages Training Conference

**Ref.:** 8104\_250391 **Date:** 23 - 27 Sep 2024 **Location:** Geneva (Switzerland) **Fees:** 5500 Euro

## Introduction

Planning and managing shutdowns, turnarounds, and outages in the process plant environment is complex and demanding. Suppose turnarounds are properly planned, managed, and controlled. In that case, companies can avoid serious budget overruns, costly schedule delays, and negative customer impacts.

This shutdown and turnaround management program has been developed to help owners and contractors meet their turnaround goals and establish best-practice turnaround management approaches. This training program combines extensive hands-on experience in turnaround planning and execution, input from turnaround teams, and emerging industry trends.

This STO shutdown, turnaround management, and outage program is designed to help participants thoroughly understand the fundamentals of effective turnaround management.

The shutdown and turnaround management program emphasizes that company staff from different departments, contractors, and vendors must combine their knowledge, resources, and energies and work as a unified team to achieve company goals and turnaround objectives successfully.

## What is Shutdown and Turnaround

Shutdowns and turnarounds refer to the planned period of downtime during which a plant or facility is off-line for maintenance or upgrade. The intricacies of managing shutdown, turnaround, and outage STO events are critical for minimizing downtime and ensuring the facility resumes production efficiently and safely.

This shutdown and turnaround management training conference will delve into the nuances of shutdown turnaround training alongside managing maintenance shutdowns and outages.

## Maximizing Efficiency During STO Events

This business turnaround conference focuses on mastering the management of shutdowns, turnarounds, and outages, ensuring each participant has the knowledge and tools to navigate these intensive and critical periods.

Attendees at this shutdown, turnaround management, and outages conference will learn to manage maintenance shutdowns and outages more efficiently and discover strategies for mitigating risks associated with these events.

## Targeted Groups

- Turnaround Managers.
- Planners.
- Schedulers.
- Reliability Engineers.
