Financial Management for Projects & Contracts

Ref.: 15207_252771 **Date:** 11 - 20 May 2025 **Location:** Online **Fees:** 1500 **Euro**

Introduction:

Financial management within projects and contracts has become crucial with the increasing challenges in today's economic climate. The Financial Management for Projects and Contracts is a comprehensive course designed to equip participants with the expertise to manage financial aspects effectively.

This financial management projects and contracts training course delves into the commonly used financial metrics and considers the significant financial impacts of typical operational decisions. Building upon existing competencies will give participants valuable insights into the dynamic interaction between finance, accounting, and project performance.

Financial Management Tools for Project Management:

Effective financial management tools are essential in today's project and contract management landscape. This financial management projects and contracts course will explore selecting and applying various financial tools to maximize project success. Understanding what tools to employ in different project scenarios fosters informed decision-making and improved financial outcomes.

Targeted Groups:

- Project Managers.
- Project Management Staff.
- Project Cost Controllers.
- Finance Professionals.
- Contracts Professionals.

Course Objectives

Upon completion of this financial management projects and contracts course, participants will be able to:

- Communicate more effectively with accounting and financial personnel.
- Read, understand, and analyze accounting and financial data.
- Leverage financial management tools and techniques in project scheduling and cost control.
- Minimize financial risk within projects.
- Develop and utilize tools to compare the financial returns of projects.
- Grasp how financial considerations often influence decisions and evaluations of project performance.

Targeted Competencies:

At the end of this financial management projects and contracts training, participants' competencies will be able to improve:

- Financial awareness.
- Project and contract management skills.
- Risk management.
- Cost control.
- Understanding of value concepts.

Course Content:

Unit 1: Fundamentals of Finance:
