Introduction:

Effective strategic leadership is primary to the future success of any organization. This strategic planning and innovation leadership conference starts with defining a clear vision and setting the leadership team's strategic intent for the organization and its various businesses.

This strategic planning and innovation leadership conference then needs to be translated into an agenda for action, not merely a 'strategic plan' but a set of guidelines or a road map setting out where the business needs to go and empowering managers at all levels to make the multitude of decisions that they need to make in the clear understanding of where the business is heading.

In this strategic planning and innovation leadership conference, strategic leaders and first-line professionals will participate in developing, implementing, and structuring the changes necessary to make a new strategy, vision, or mission work efficiently in today's dynamic environment.

This strategic planning and innovation leadership conference will focus on developing the core strategies and plans to make the organization reach its vision or targets. Then, it will drill more deeply into the organization to develop techniques that get the workforce "on board" with the changes and have them participate in working out the problems and implementing the new strategies.
