Intellectual Property Training Course

Ref.: 9236_253309 **Date:** 05 - 09 Jul 2026 **Location:** Amman (Jordan) **Fees:** 3300 Euro

Introduction:

The intellectual property law and management course aims to promote awareness of intellectual property as one of a company's most essential assets in the global market environment.

This intellectual property law and management course provides an informative and exciting overview and exchange of views for professionals and non-professionals on an organization's Intellectual Property IP management strategy.

The Certificate Course in Intellectual Property Law provides comprehensive intellectual property IP training. This program is designed to equip participants with essential knowledge and skills related to IP law, covering topics such as trademarks, copyrights, patents, and trade secrets.

Targeted Groups:

- Legal and paralegal managers.
- Public officials.
- Governmental professionals.
- Department heads.
- Team leaders.
- Supervisors.
- Anyone who wishes to gain knowledge of intellectual property.

Course Objectives:

At the end of this intellectual property law and management course, the participants will be able to:

- Identify intellectual property and its importance.
- Enumerate various IP rights.
- Protect employees and organizations from any IP rights abuse.

Targeted Competencies:

At the end of this intellectual property law and management course, the target competencies will be able to:

- Intellectual property.
- Legal procedure.
- Patent procedure.
- Rights protection.

Critical of Intellectual Property Law and Management:

Upon completing the intellectual property certification, individuals will understand the importance of IP management and the best practices involved. The course explores the intellectual property management process, including developing IP management plans and using tools to effectively protect and leverage intellectual assets.

This intellectual property course is ideal for professionals seeking to enhance their expertise in IP management or those considering a career in this dynamic field. It complements advanced studies such as a Master's in Intellectual Property Management. It provides a solid foundation in IP law and strategies for managing intellectual assets.

Participants will emerge from this intellectual property training with a clear understanding of the definition of intellectual property and its significance in today's global economy. By learning from experienced professionals, they will be equipped to navigate the complexities of intellectual property law and contribute effectively to managing and protecting intellectual assets within their organizations.

Course Content:
