Budgeting, Planning & Contracting Management Training

Ref.: 15174_254345 **Date:** 06 - 17 Jan 2025 **Location:** Lisbon (Portugal) **Fees:** 8500 Euro

Introduction:

This budgeting, planning, and contracting management seminar provides the skills to build world-class standards into your budgeting, planning, management, and reporting systems. It will discuss innovative techniques that complement traditional financial planning tools and introduce new concepts for measuring and reporting performance and shareholder wealth creation.

This budgeting, planning, and contracting management course delves into risk management budget planning, addressing issues related to capital budgeting, and covers a wide range of topics, including manufacturing costs, profit objectives, cash requirements forecasting, and more.

The second week of this budgeting, planning, and contracting management course aims to endow participants with the knowledge, skills, and tools required to manage contracts effectively throughout their lifecycle.

This budgeting, planning, and contracting management training includes methodologies for managing activities and best practices in contracting management. The course is designed to provide robust insights into contract preparation, contract award, and contract administration.

What Is Budget Planning in Project Management?

Budget planning is an essential skill in project management. It helps determine how resources should be allocated to achieve project goals. It involves estimating project costs, setting a budget, and monitoring expenditures to ensure the project stays on financial track.

Targeted Groups:

- Financial Planners.
- Cost Analysts.
- Professional Advisers.
- Account Personnel.
- Business Consultants.
- Professionals require a more in-depth understanding of integrated planning and budgeting techniques.
- Accountants are responsible for budget preparation and management reporting.
- Those are involved in preparing, managing, or administering contracts.

Course Objectives:

Participants in this budgeting, planning, and contracting management course will:

- Build integrated planning, budgeting, and reporting processes.
- Improve their budgeting/financial skills, which is required for better decision-making.
- Understand cost behavior more accurately.
- Deliver more timely and useful information to decision-makers.
- Explain typical costing and budgeting terminology used in business.
- Improve their management abilities.
- Increase their understanding of forecasting and budgeting techniques.
- Understand the problems of overheads and how Activity-Based Analysis may aid decision-making and pricing strategies.
- Contribute to the implementation of change in the organization.
- Facilitate the elimination of non-value activities and the reduction of costs within your organization.
- Understand cost behavior and patterns.
- Ensure that business planning, budgeting, and management reporting processes are robust in themselves and suitable for their organization.
- Identify principles, definitions, and major steps involved in the contracting process.
- Outline all contract preparation activities, including planning, developing the scope of work, and identifying sourcing options.
- Recognize different types of contracts and the effect of each type on the risk allocation strategy.
- Develop criteria to invite, receive, and evaluate bids.
- Apply contract administration tools and techniques to manage the contract and avoid disputes during implementation effectively.
- Resolve disputes collaboratively and amicably and outline alternative dispute resolution methods.

Targeted Competencies:

Target competencies in this budgeting, planning, and contracting management training will:

- Separate problem identification and problem-solving.
- Explore objectives and strong analysis of plans and results.
- Understanding the control aspects of budgeting.
- Understand the ability to appreciate the human factors involved in budget setting.
- Contract preparation.
- Contract administration.
- Prepare and evaluate bids.
- Plan contracting process.
- Resolve contractual disputes.
- Manage contractors.
