The 5-Day MBA Contract Management Professional Mini Master

Ref.: 4073_259055 **Date:** 16 - 20 Sep 2024 **Location:** Brussels (Belgium) **Fees:** 4500 **Euro**

Introduction:

In every organization, the basis of business activity is the creation, drafting, negotiation, and management of contracts. Those involved in the contracting process are, rightly, required to act as contract professionals and can no longer afford to treat contracts as an adjunct to their main roles. The increasing complexity of contracts, particularly when used in an international context, has brought the need for professional contract management skills into sharp focus.

Becoming a certified professional contract manager signifies that an individual has mastered the core competencies of contract management. The course prepares participants for professional contracting roles, equips them with best practices in professional contract management, and may ultimately assist in achieving contracting professional certification.

Professional Contracting Skills Development:

A significant outcome of this course is equipping attendees with advanced professional contracting skills. These skills are critical in today's complex business environment, where professional contract managers play a pivotal role in ensuring strategic agreements are well-crafted, negotiated, and managed to the benefit of all parties involved.

Targeted Groups:

- Contracts and contract administration professionals.
- Tendering and purchasing professionals.
- Engineering, operational, and maintenance professionals.
- Project managers.
- Finance personnel

Course Objectives:

At the end of this professional contract management course, the participants will be able to:

- Understand the issues behind contracts.
- See how contracts can be used in an international context.
- Explore ways of creating contracts and the different strategies available for different types of projects.
- Review different types of contracts.
- Examine some of the issues that arise in drafting contracts.
- Share examples of how to manage contracts to maximize the result for the organization.
- Develop negotiation skill sets to achieve the organization's objectives.
- Discuss important aspects of price and cost analysis.
- Analyzing the various pricing models used in preparing proposals.
- Recognize contract types and how they transfer risk.

Targeted Competencies:

Upon the end of this professional contract management course, the target competencies will be able to develop the following:

- Contract management.
- Project management.
- Planning and scheduling.
- Risk management.
- Performance measurement.
- Communication skills.
- Negotiation skills.
