

## Internal Reporting Control: Financial and Operational

04 - 08 Nov 2024  
Geneva (Switzerland)

# Internal Reporting Control: Financial and Operational

**Ref.:** 15288\_261301 **Date:** 04 - 08 Nov 2024 **Location:** Geneva (Switzerland) **Fees:** 5500 Euro

## Introduction:

A well-designed and effective internal financial control system verifies and ensures that accounting and financial policies, procedures, and controls work adequately. It also highlights any significant issues that need attention. This internal control over a financial reporting course will enhance your ability to implement effective internal control to prevent and detect fund mismanagement.

Adherence to regulations that ensure the reliability and accountability of financial information is critical for an organization's success and is mandated by law. You will learn how to implement and evaluate internal control over a financial reporting program by examining roles and responsibilities, conducting risk assessments, and developing test plans.

## Targeted Groups:

- Finance Professionals.
- Accountants.
- Financial Planning and Control Staff.
- Executives are responsible for the cost and strategic analysis.

## Course Objectives:

At the end of this internal control over financial reporting course, the participants will be able to:

- Understand and apply a structured and systematic Internal Control over Reporting ICFR approach.
- Define and explain the relevant terminology, concepts, and requirements for internal control over financial reporting.
- Identify the roles and responsibilities of the participants in the ICFR process.
- Explain the relationships between operational and financial stakeholders that are key to internal financial control reporting.
- Implement an ICFR program with sound internal control over financial reporting.
- Prepare a documented and supported Statement of Assurance on ICFR.
- Identify the internal controls report requirements within an organization.

## Targeted Competencies:

Upon the end of this internal control over financial reporting training, the participant's competencies will be able to:

- Master techniques for financial analysis.
- Identify the right processes to redesign in terms of added value.
- Test the financial impact of strategic direction.
