Managing Health and Safety in The Work Training Conference

Ref.: 8151_269961 **Date:** 25 - 29 Nov 2024 **Location:** Amsterdam (Netherlands) **Fees:** 4900 Euro

Introduction:

This training conference on managing health and safety in the workplace will provide those in managerial and supervisory roles with comprehensive knowledge and understanding of health and safety issues. Through effective safety management practices, participants will learn strategies to reduce costs and improve profits.

The importance of health and safety in the workplace cannot be overstated, and engaging in this workplace health and safety management training will help foster a culture of safety and sustainability within organizations.

However, more is needed to continuously improve health and safety performance. Personnel must have a sound understanding of the areas that can give rise to losses. The conference covers all the basic areas of safety in the workplace.

Health and Safety Technology and Procedures:

While technology and procedures are critical components of health and safety management, they must be complemented by personnel deeply committed to and cognizant of areas that can lead to losses. This workplace health and safety management conference includes fundamental concepts such as safety management, safety culture, workplace equipment, hazardous agents, and legislation, all of which aim to improve health and safety in the workplace.

Target Groups:

The target audience for this workplace health and safety management conference includes Managers, Supervisors, and Safety Professionals who are eager to enhance their skills and competencies to fulfill their workplace safety and health responsibilities effectively.

Conference Objectives:

By the conclusion of this workplace health and safety management training, participants will be able to:

- Define the sources of harmful acts.
- Develop an appreciation that safety is everyone's responsibility.
- Recognize that accidents stem from unsafe acts, behaviors, and conditions.
- Undertake job safety analysis and provide safety instructions.
- Conduct thorough accident investigations and complete substantial accident reports.
- Respond to various workplace accidents and emergencies adeptly.

Targeted Competencies:

Upon completion of the workplace health and safety management conference, participants will have gained competencies in the following:

- Health and Safety Management Systems.
- Safety Legislation.
- Fostering a Health and Safety Culture.
- Identifying and Controlling Work Equipment Hazards.
